

Sales & Revenue Analysis Dashboard

Objective: Build a dashboard to analyze sales and revenue data.

Steps

1. Create/import a dataset with Date, Product, Category, Region, Quantity, Unit Price, Revenue.
2. Import into Power BI or Excel.
3. Create KPI cards: Total Sales, Total Revenue, Total Quantity.
4. Add Line Chart (Revenue by Date), Bar Chart (Sales by Product), Pie Chart (Category), Slicers (Date, Product, Region).
5. Arrange visuals into a dashboard and save/export.
